Northgate Wellness & Financial Services — Synthetic Test Record

This is a fabricated document generated purely to test a sensitive-data detection tool. All names, numbers, and identifiers below are fictional and do not correspond to any real person.

1. Patient Intake Form

Patient Name: Meera Krishnan
Date of Birth: 14/03/1988
Medical Record Number: MRN-2291847
Insurance ID: INS-88213-XJ
Blood Type: O negative
Diagnosis: Type 2 diabetes mellitus, well-controlled on medication.
Prescription: Metformin 500mg, twice daily.
Attending Physician NPI: 1932847561
Treatment Notes: Patient reports improved glucose readings since last visit; continue current lab_result monitoring schedule.

2. Employee Record

Employee Name: Arjun Verma
Employee ID: EMP-004471
Address: 42 MG Road, Koramangala, Bengaluru, Karnataka 560034
Phone: +91 91360 32205
Personal Email: arjun.verma88@fastmail.com
Aadhaar Number: 4521 8890 1123
PAN: BKPPV1234E
Annual Salary: ■18,50,000 per annum
Emergency Contact: Priya Verma, +91 98450 11223

3. Financial Statement Extract

Account Holder: Arjun Verma
Bank Account Number: 003921004471
IFSC / Routing Number: HDFC0000342
Credit Card: 4539 1488 0343 6467
Expiry: 09/28 CVV: 742
IBAN (linked NRE account): GB29 NWBK 6016 1331 9268 19
US SSN (linked co-signer, US-based): 219-09-4471
US Passport (co-signer): 483920184
US Driver's License (co-signer): D1928473

4. Project Description (Tech Stack — Should NOT Be Flagged)

Loan Approval Prediction using Machine Learning Classification Techniques
Developed classification models to predict loan approval based on applicant details such as income, credit history, employment status, and loan amount. Involved data preprocessing, EDA, and model evaluation using multiple algorithms.
Tech Stack/Tools: Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn (Logistic Regression, Decision Tree, Random Forest, SVM), Jupyter Notebook.

5. Access Log Extract

Last login IP: 103.27.9.184
